

Drew Wilson

Software Developer

Atlanta, GA | 630.696.7997 | drewewilson1@gmail.com | [Portfolio](#) | [Github](#) | [LinkedIn](#)

Results driven Software Engineer with a background in International Business. I use HTML5, JavaScript, React and Express to build applications that solve clients' needs and make their lives easier. I bring my passion for analysis and organizational knowledge to software development and use my skills and creativity to make each project unique. I love creating work that will be used by others and feel a responsibility to create the best product I can for the best experience.

SKILLS

JavaScript | React | Express | Node.js | REST API | Python | Django | MongoDB | Mongoose | CSS3 | SASS | HTML5 | Bootstrap | Chart.js | Git | GitHub | JSX | PostgreSQL |

PROJECTS

CryptoTalk - Website that displays crypto currencies with real time data. Developed with user authentication to save your favorite cryptos to a profile. Created with MERN stack and chart.js.

Find A Recipe - Recipe website that allows users to easily find recipes with step by step instructions. Single page application using React, JavaScript, HTML, CSS, API.

Attack of the Holidays - Single player fighting game against the computer. Designed 3 rounds with changing backgrounds and enemies. Built with JavaScript, HTML, CSS.
